Improving the effectiveness of language learning: CLIL and computer assisted language learning

25 June 2014

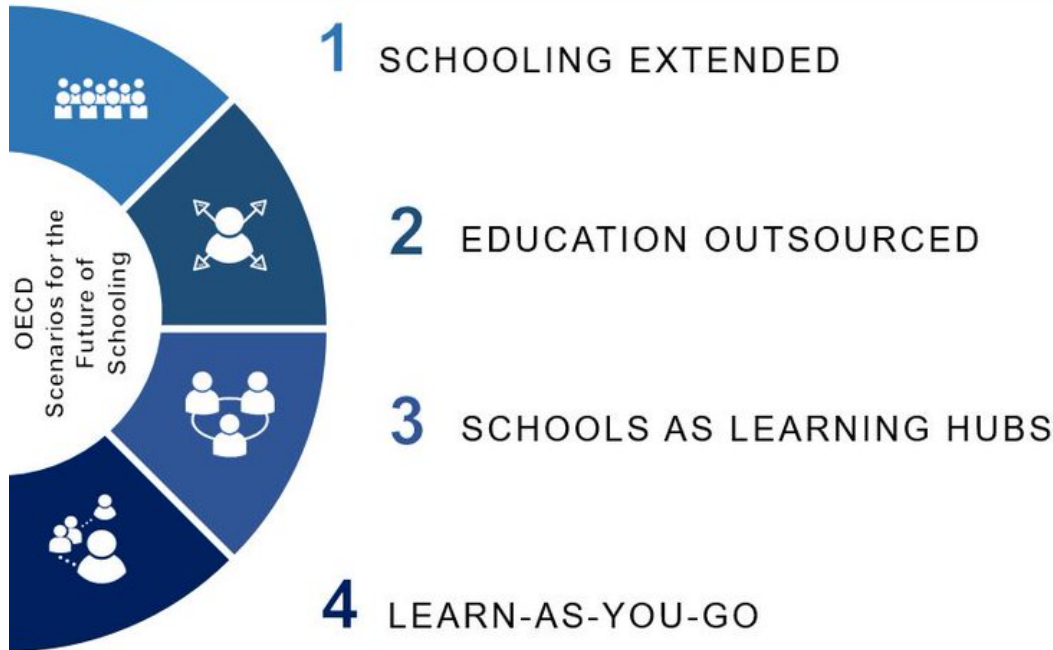

Council Recommendation on a comprehensive approach to the teaching and learning of languages

With increasing mobility to the EU and between its Member States, education and training systems need to adapt to the challenges and opportunities posed by Europe's linguistic diversity.

CALL therefore includes:

- Authentic foreign language material, such as video clips, flash-animations, web-quests, pod-casts, web-casts, and news etc.;
- Online environments where learners can communicate with foreign language speakers, through email, text-based computer-mediated communication (synchronous and asynchronous), social media, or voice/video conferencing;
- Language-learning tools (online apps or software), such as for phonetics, pronunciation, vocabulary, grammar and clause analysis, which may include a text-to-speech function or speech recognition, and often includes interactive and guided exercises;
- Online proprietary virtual learning environments, which offer teacher-student and peer-to-peer communication;
- Game-based learning.

PENPAL SCHOOLS IS OFFERING FREE ACCESS DURING THE COVID-19 PANDEMIC
Schools that are still open also have free access. [Help your school adapt.](#)

The banner features a dark blue space background with a view of Earth from space. It includes the PenPal Schools logo, a central text prompt, four role selection buttons with cartoon avatars, and a dark grey box at the bottom with white text about free access during the COVID-19 pandemic.
